TRAN MINH KHOA

BACKEND DEVELOPER INTERN

Email: minhkhoa@example.com | Phone: 0901 234 567 | Ho Chi Minh City, Vietnam

CAREER OBJECTIVE

IT student interested in backend engineering and API development. Seeking an internship where I can build reliable web services and improve database and software engineering skills.

EDUCATION

Bachelor of Information Technology - Example University

2024 - Present | Information Technology undergraduate

TECHNICAL SKILLS

Programming	Java, Python, C++, SQL
Backend	Spring Boot, Flask, REST API, ASP.NET
Database	MySQL, PostgreSQL, SQLite
Tools	Git, GitHub, Docker, Linux

PROJECTS

Online Training Management System

Designed course, lesson, enrollment, quiz and result modules using MVC and multi-tier architecture. Worked with backend CRUD operations, SQL databases and REST-style application structure.

Banking Management System

Built transaction features including deposit, withdrawal, transfer, undo and redo. Practiced C++, OOP, CMake, unit testing and database integration.

ACTIVITIES

Participated in programming practice, team software projects and Git/GitHub source control. Continuously learning practical IT skills through coursework and personal projects.

LANGUAGES

Vietnamese: Native | English: Intermediate

KEYWORDS FOR SYSTEM TESTING

Java, Spring, Spring Boot, backend, REST API, SQL, MySQL, PostgreSQL, Flask, Python, Docker, Git, Linux.
