LE QUANG NAM

CYBERSECURITY INTERN

Email: quangnam@example.com | Phone: 0901 234 567 | Ho Chi Minh City, Vietnam

CAREER OBJECTIVE

Cybersecurity-oriented IT student interested in network security, traffic analysis and defensive security. Seeking an internship to gain practical security monitoring and incident analysis experience.

EDUCATION

Bachelor of Information Technology - Example University

2024 - Present | Information Technology undergraduate

TECHNICAL SKILLS

Security	Cybersecurity, network security, Wireshark, vulnerability analysis
Networking	TCP/IP, DNS, VLAN, routing, ARP
Systems	Linux, Windows, system administration
Programming	Python, C++
Tools	Git, Wireshark, Linux

PROJECTS

ARP Spoofing and LAN Risk Analysis

Studied ARP operation, packet fields, ARP spoofing risks and LAN defense techniques. Analyzed network traffic using Wireshark and evaluated mitigation approaches.

Network Laboratory

Configured VLANs, trunks, routing and IP subnetting in network simulation exercises. Practiced troubleshooting connectivity and network services.

ACTIVITIES

Participated in programming practice, team software projects and Git/GitHub source control. Continuously learning practical IT skills through coursework and personal projects.

LANGUAGES

Vietnamese: Native | English: Intermediate

KEYWORDS FOR SYSTEM TESTING

cybersecurity, networking, Linux, Wireshark, ARP, TCP/IP, DNS, VLAN, routing, Python, vulnerability analysis.
